TEX

THE ARBORTEXT WAY

DEPTH

ArborText's TEX products reflect more than 10 year's experience and the depth of our professional development staff. Our TEX programs are flexible, fast, and loaded with features. Our work with the forthcoming TEX 3.0 and virtual fonts is yet another example of how our experience keeps us on the leading edge of TEX development.

DEDICATION

ArborText continues its tradition of dedication to its customers with a knowledgable and responsive customer support staff, the ArborText TEX Software Newsletter, and frequent software upgrades. We are also continuing to search for products to complement TEX, and enhance its usefulness.

DIVERSITY

ArborText offers more TEX products for more platforms than anyone. Whether you work on a Sun, Apollo, HP, DEC, Mac or PC, ArborText has the TEX solution for you. ArborText is also a distributor of TEX support products including ***Mathematica***^{TM} and HiJaak.^{TM} Such diversity makes ArborText the preferred source for all your TEX needs.

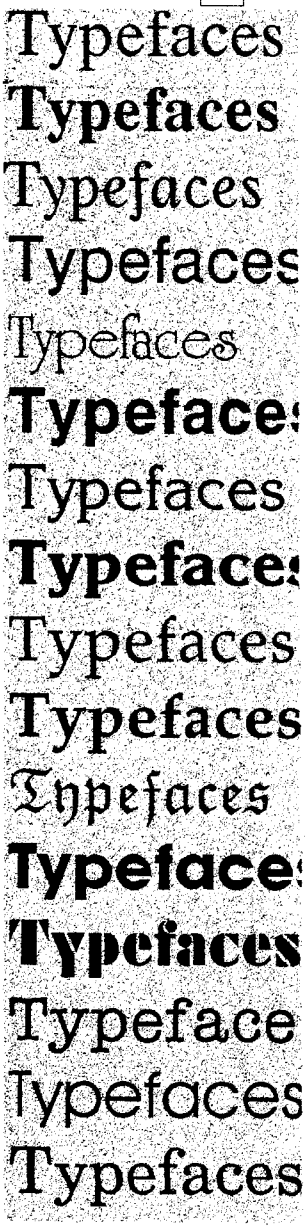
TEX for the 90's

VECTOR™

TEX



Retain all the advantages of TEX and

- Save megabytes of storage—entire VTEX fits on one floppy.
- Instantly generate any font in any size and in any variation from 5 to 90 points.
- Standard font effects include compression, slant, smallcaps, outline and shading. New: shadow.
- Discover the universe of MicroPress professional typefaces: not available for any other TEX.

List price .....$399 Introductory offer $299

Includes the VTEX typesetter, 10 scalable typefaces, VVIEW (arbitrary magnification on EGA, CGA, VGA, Hercules, AT&T), VLASER (HP LaserJet), VPOST (PostScript), VDOT (Epson, Panasonic, NEC, Toshiba, Proprinter, Star, DeskJet) and manuals.

Introductory offer expires on April 1, 1990. S/H add $5. COD add $5. WordPerfect Interface add $100. Site licenses available. Dealers' inquiries welcome. Professional typefaces and METAFONT sources available for older implementations of TEX. Order by May 1st and receive an additional free font.

PUT GRAPHICS IN TEX WITH CAPTURE

CAPTURE is the graphics solution for PC-based TEX. CAPTURE places graphics in TEX documents produced on IBM PC systems with Hewlett-Packard LaserJet printers (and compatibles). **Doesn't use PostScript.**

Designed for TEX. Carefully removes all 28 LaserJet control codes that disrupt TEX. Tested with PCTEX, μTEX, and TEXPLUS. This ad was made using CAPTURE and TEXPLUS.

"Captures" the graphics generated by any application program. Use CAPTURE to include graphics from "paint" programs, circuit design, CAD, scientific data plotters, optics design, terminal emulators, clip art, spreadsheets, databases — any program that supports the LaserJet.

Can position the graphics: flushleft, flushright, centered, etc. Removes leading and trailing blank space. Graphics are treated as an \hbox{} in TEX.

Price: $137. Special Introductory offer: $115.

IS YOUR PC STILL TEXLESS?

It doesn't have to be.
End TEXlessness with the Personal TEX, Inc. products below,
at 20% off to TUG members.
Coming in spring:
PCTEX 386 and PCTEX Special 5th Year Anniversary catalog.

PTIJET FOR HP DESKJET. Full featured printer driver for HP DeskJet, PLUS. Laser quality output. ~~$119~~ **$95**

PC TEX + PTILASER + PTIVIEW. TEX82, Version 2.9: professional formatting and typesetting results–for amateur prices. Includes INITEX, LaTEX, AMS-TEX, VANILLA Macro Pak, PC TEX and LaTEX manuals. Plus a PTILaser device driver, to take full advantage of your laser printer. PLUS the PTIView screen previewer for on-screen previewing of your TEX documents and immediate editing. Top performance and low cost make this our most popular package. ~~$499~~ **$399**

PC TEX + PTILASER. As above, but without the PTIView screen previewer. ~~$399~~ **$309**

PC TEX + PTIDOT + PTIVIEW. This package gives you all the TEX and PTIView benefits, together with our dot-matrix device driver for reliable, low cost printing. ~~$399~~ **$309**

PC TEX + PTIJET + PTIVIEW. Same as the above package, but with PTIJet instead of PTIDot. Laser quality output. ~~$429~~ **$343**

PC TEX + PTIJET. As above, without the PTIView screen previewer. ~~$329~~ **$263**

PCMF—METAFONT for the PC. Lets you design fonts and create graphics. (Not for the novice.) pcMF Version 1.7. ~~$195~~ **$156**

PTI LASER HP+, SERIES II. This device driver for the HP LaserJet Plus and Series II laser printers takes full advantage of the 512K resident memory. ~~$195~~ **$156**

PTI LASER POSTSCRIPT. Device driver for PostScript printer; allows the resident fonts and graphic images to be used in TEX in documents. ~~$195~~ **$156**

PTI FONTWARE Interface Package. Software to generate Bitstream outline fonts at any size. (The Interface is necessary to use Bitstream fonts. Fonts are not inluded—order below). ~~$95~~ **$76**

PTI FONTWARE WITH SWISS or DUTCH. Same as above but includes your choice of either Swiss or Dutch at a special bundled price. ~~$179~~ **$143**

BITSTREAM Font Families. An extensive library of 30 type families, in any size you specify, with true typographic quality. Each family: ~~$179~~ **$143**

PERSONAL TEX INC

To order, just dial
(415) 388-8853

12 Madrona Avenue Mill Valley, CA 94941 FAX: (415) 388-8865 VISA, MC accepted.

Requires: DOS 2.0 or later, 512K RAM, 10M hard disk. TEX is an American Mathematical Society TM. PC TEX is a Personal TEX, Inc. TM. Manufacturers' names are their TMs. Outside the USA, order through your local PC TEX distributor. Inquire about available distributorships and site licenses. This ad was produced using PC TEX and Bitstream fonts.

TYPESETTING: JUST $2.50 PER PAGE!

Send us your TEX DVI files and we will typeset your material at 2000 dpi on quality photographic paper — $2.50 per page!

Choose from these available fonts: Computer Modern, Bitstream Fontware™, and any METAFONT fonts. (For each METAFONT font used other than Computer Modern, $15 setup is charged. This ad was composed with PCTEX® and Bitstream Dutch (Times Roman) fonts, and printed on RC paper at 2000 dpi with the Chelgraph IBX typesetter.)

And the good news is: just $2.50 per page, $2.25 each for 100+ pages, $2.00 each for 500+ pages! Laser proofs $.50 per page. ($25 minimum on all jobs.)

Call or write today for complete information, sample prints, and our order form. **TYPE 2000, 16 Madrona Avenue, Mill Valley, CA 94941. Phone 415/388-8873.**

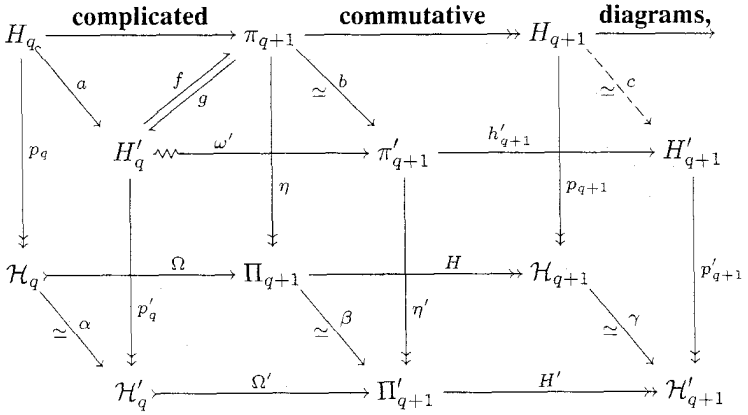
TYPE 2000

ANNOUNCING:

new! — LAMS-TEX — *by* Michael Spivak, author of the AMS-TEX macro package and *The Joy of TEX*

The Synthesis

All the functionality of LaTeX, *with much greater flexibility*, and all features of AMS-TEX, **PLUS**



complicated	**tables,**	Group C					
		Committee A				Committee B	**The TEXplorators Corporation** **3701 W. Alabama, Suite 450-273** **Houston, TX 77027**
		Unit 1		Unit 2			
		Side 1	Side 2 (Left)	Side 1	Side 2 (Left)		

AND MUCH, MUCH, MORE!

- Latest `amstex.tex` file (version 2.0)
- LAMS-TEX macro packages
- 300 page Manual (assumes some familiarity with AMS-TEX)
- Fonts for commutative diagrams: `.tfm` files, `.pk` files at 118, 180, 240, and 300 dpi, and MetaFont sources; MAC versions have fonts for TEXtures.
- `dvipaste` program for including tables in files
- `index` program

Single user price **$95**; Texas orders add appropriate sales tax. Specify MS-DOS (5¼″ diskettes) or MAC; for other configurations, write for information. Add $8 shipping/handling in U.S. and Canada (UPS 2nd day air in U.S., first class to Canada), and $35 for air shipment elsewhere. Send check or money order to the address cleverly hidden in the table. *Prices subject to change.*

Updated TEX Products
from the American Mathematical Society

AMS-TEX Version 2.0

AMS-TEX, the TEX macro package that simplifies the typesetting of complex mathematics, has been updated to version 2.0. AMS-TEX is intended to be used in conjunction with AMSFonts 2.0 (see below). However, AMS-TEX can also be used without AMSFonts. AMS-TEX is available on IBM or Macintosh diskettes—either format may be uploaded to many mainframe computers. **Prices:** $30 list, $27 AMS member. A free upgrade is available (until September 1, 1990), for those who have purchased a previous version.

AMSFonts Version 2.0

AMSFonts 2.0 are designed for use with either AMS-TEX 2.0 or Plain TEX. AMSFonts 2.0 **cannot** be used with previous versions of AMS-TEX. Two distributions of fonts are available: one for use on PCs and mainframes (with any implementation of TEX), the other for use on a Macintosh with *Textures*. The fonts included on these distributions are:

Font Name	Description	Point Sizes	Font Name	Description	Point Sizes
CMEX	CM Math Extension	7-9*	EUSM	Euler Script Medium	5-10
CMCSC	CM Caps and Small Caps	8-9*	EUEX	Euler Compatible Extension	7-10
CMMIB	CM Math Italic Boldface	5-9*	MSAM	Symbols	5-10
CMBSY	CM Bold Symbols	5-9*	MSBM	Symbols (w/Blackboard Bold)	5-10
EURB	Euler Cursive Boldface	5-10	WNCYR	Cyrillic Upright	5-10**
EURM	Euler Cursive Medium	5-10	WNCYI	Cyrillic Italic	5-10**
EUFB	Euler Fraktur Boldface	5-10	WNCYB	Cyrillic Boldface	5-10**
EUFM	Euler Fraktur Medium	5-10	WNCYSC	Cyrillic Caps and Small Caps	10**
EUSB	Euler Script Boldface	5-10	WNCYSS	Cyrillic Sans Serif	8-10**

* 10 point is included in the standard TEX distribution.
** Developed by the University of Washington

AMSFonts for use on a PC or mainframe

- Font Resolution: 118, 180, 240, 300, 400 dpi (one resolution per order).
- Magnification: All the standard TEX magnifications are included. The standard magnifications are: 100, 109.5, 120, 144, 172.8, 207.4, and 248.8%.
- Format: high-density 5.25"diskettes.
- Prices: $45 list, $41 AMS member. A free upgrade is available (until September 1, 1990), for those who have purchased a previous version.

AMSFonts for use on a Macintosh with *Textures*

- Font Resolution: 72, 144, and 300 dpi (all resolutions included in each order).
- Magnification: The standard distribution includes fonts at 100% and 120%. An extended distribution, containing all the standard TEX magsteps, is also available.
- Format: double-sided double-density 3.5" diskettes.
- Prices: *Standard* (magsteps 0-1): $30 list, $27 AMS member. *Extended* (magsteps 0-5): $45 list, $41 AMS member. A free upgrade is available (until September 1, 1990), for those who have purchased a previous version.

SHIPPING AND HANDLING CHARGE: $8 per order in the US and Canada, $15 elsewhere.

HOW TO ORDER: Prepayment is required. Send orders to: American Mathematical Society, P. O. Box 1571, Annex Station, Providence, RI 02901. When ordering AMSFonts for the PC, specify desired resolution. For more information: Call the AMS at (401) 455-4166, or (800) 321-4AMS in the continental U.S. and Canada, or write to: TEX Library, American Mathematical Society, P.O. Box 6248, Providence, RI 02940.

TEX Plus

TEX Pro

BIG TEX

Exciting new products for the PC based on TEX 3.0

Big TEX $200

They said it couldn't be done! Big TEX puts four times the main memory of existing PC based TEX implementations onto your PC (256K of TEX words). Big TEX also offers the latest version of TEX (version 3.0), and uses EMS memory if available. If a lack of main memory is keeping you from creating the tables or using the macros you need, Big TEX is for you! Includes the new AMSTEX style file that lets you use the AMSTEX macros inside LaTEX.

TEX Pro $350

TEX Pro adds the power of Big TEX to TEX Plus! TEX Pro includes the TEXWRITE editor, CTEX, Big TEX, and printer drivers for the HP LaserJet Plus/Series II and IIP, PostScript laser printers, and Epson FX/IBM Graphics dot matrix printers. Also included are a set of Computer Modern and SliTEX fonts for the laser printers. The dot matrix fonts can be purchased separately for $25, or substituted for the laser printer fonts.

TEX Plus 2.0 . . . . . $195

TEX Plus provides an integrated solution to using TEX on a PC. New features include support of TEX 3.0, support for EMS, and faster execution speed. We've also added a dot matrix driver for the Epson FX and compatibles.

TEX Plus includes the TEXWRITE editor, CTEX, and printer drivers for the HP LaserJet Plus/Series II and IIP, PostScript laser printers, and Epson FX/IBM Graphics dot matrix printers. Also included are a set of Computer Modern (and SliTEX) fonts for the laser printers. The dot matrix fonts can be purchased separately for $25, or may be substituted for the laser printer fonts.

CTEX 2.0 . . . . . $129

CTEX is an implementation of TEX version 3.0 for the PC. Faster than previous versions, CTEX version 2.0 provides virtual memory management for handling large macro packages and for environments, such as a network, where the available RAM is reduced by system overhead. Version 2.0 also makes use of EMS memory, where available, for faster processing. Includes LaTEX, SliTEX and AMSTEX macro packages.

TEXPRINT/HP $129

TEXPRINT/HP translates TEX's output for HP LaserJet Plus, Series II and IIP printers. Features include landscape printing, collating, odd or even page selection, reverse order printing, inclusion of graphics (using packages such as CAPTURE), all from an easy-to-use menu interface. A utility for converting HP Soft Fonts for use with TEX, and a set of Computer Modern and SliTEX fonts are also included.

TEXPRINT/PS $129

TEXPRINT/PS translates TEX's output for PostScript printers such as the Apple LaserWriter, the QMS PS-800/810, and the NEC LC-890. Features include support for PostScript fonts, landscape printing, collating, odd or even page selection, reverse order printing, inclusion of graphics, all from an easy-to-use menu interface. A utility for converting Adobe Font Metric files (so that downloaded PostScript fonts can also be used with TEX), and a set of Computer Modern and SliTEX fonts are also included.

MAXview $125

MAXview, produced by Aurion Tecnología, adds easy-to-use screen previewing capabilities to your TEX system. Maxview can be used with IBM CGA/EGA/VGA, Hercules, and many other monitors.

To order, call
Oregon House Software
(916) 692-1377

Or send your order to:

Oregon House Software, Box 70, 12894 Rices Crossing Rd., Oregon House, CA 95962

In Canada:

Publishing Companion translates

WordPerfect

to

TEX

It doesn't take a TEXpert to use TEX.

With **Publishing Companion**, you can publish documents using TEX with **little or no TEX knowledge**. Your WordPerfect files are translated into TEX files, so anyone using this simple word processor can immediately begin typesetting their own documents!

And now, **Publishing Companion** translates **WordPerfect 5.0 and 5.1** files into TEX.

Retail Price $249.00

Academic Discount Price $199.00

For the power of TEX with the ease of a word processor, **Publishing Companion** is your "best friend" for desktop publishing.

DESKTOP PUBLISHING HAS NEVER BEEN SIMPLER
AND WILL NEVER BE THE SAME

Public Domain TEX

The authorized and current versions TEX software are available from *Maria Code - Data Processing Services* by special arrangement with Stanford University and other contributing universities. The standard distribution tape contains the source of TEX and METAFONT, the macro libraries for AMS-TEX, LATEX, SliTEX and HP TEX, sample device drivers for a Versetec and LN03 printers, documentation files, and many useful tools.

Since these are in the public domain, they may be used and copied without royalty concerns. They represent the official versions of TEX. A portion of your tape cost is used to support development at Stanford University.

If you have a DEC VAX/VMS, IBM CMS, IBM MVS or DEC TOPS operating system, you will want to order a special distribution tape which contains "ready-to-run" TEX and METAFONT. If you do not have one of these systems, you must perform a more involved installation which includes compiling the source with your Pascal compiler. Ready-to-run versions of TEX are available for other systems from various sources at various prices. You may want to examine these before ordering a standard distribution tape.

The font tapes contain GF files for the Computer Modern fonts. While it is possible to generate these files yourself, it will save you a lot of CPU time to get them on tape.

All systems are distributed on 9 track, 1600 bpi magnetic tapes. If both a distribution tape and a font tape are ordered, they may be combined on a single 2400′ reel, space permitting.

Your order will be filled with the current versions of software and manuals at the time it is received. If you want a specific version, please indicate that on your order.

Please use the form on the next page for your order. Note that postage, except domestic book rate is based on the item weights in pounds. If you want to place your order by telephone, please call (408) 735-8006 between 9:00 am and 2:00 pm West Coast time. Do not call for technical assistance since no one there can help you.

We normally have a good stock of books and tapes, so your order can be filled promptly — usually within 48 hours.

Make checks payable to *Maria Code - Data Processing Services*. Export orders must have a check drawn on a US bank or use an International Money Order. Purchase orders are accepted.

TEX Users

Take Note . . . .

Computer Composition Corporation offers the following services to those who are creating their technical files using TEX:

- Convert your DVI files to fully paginated typeset pages on our APS-5 phototypesetters at 1400 dpi resolution.
- Files can be submitted on magnetic tape or PC diskettes.
- Provide 300 dpi laser-printed page proofs which simulate the typeset page. (Optional service $1.50 per page)
- Macro writing and keyboarding from traditionally prepared manuscripts **in several typeface families** via the TEX processing system. Send us your manuscript for our review and quotation.
- Full keylining and camera work services, including halftones, line art, screens and full-page negatives or positives for your printer.
- Quick turnaround **(usually less than 48 hours!)** on customer supplied DVI files of 500 typeset pages or less.
- From DVI files: first 100 typeset pages at $4.75 per page; 100 pages and over at $3.50 per page. **Lower prices for slower turnaround service.**

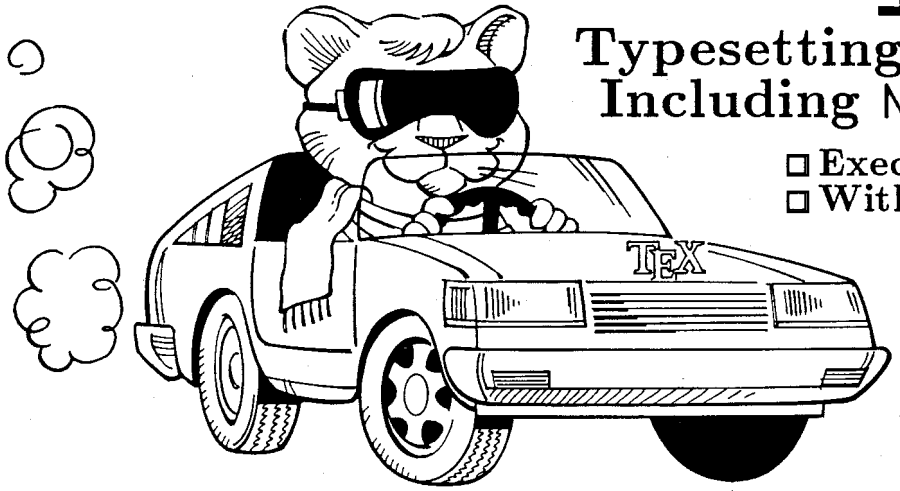
TurboTEX

Typesetting Software Including METAFONT



☐ Executables $150
☐ With source $300

TEX 3.0 Update!

TurboTEX Release 3.0 software brings you the latest TEX 3.0 and METAFONT 2.0 standards: preloaded plain TEX, LATEX, AMS-TEX and AMS-LATEX, and plain METAFONT interfaced to CGA/EGA/VGA/Hercules graphics; TRIP and TRAP certification; Computer Modern and LATEX fonts, and printer drivers for HP LaserJet Plus/II/IIP, HP DeskJet, PostScript, and Epson LQ and FX dot-matrix printers. This wealth of software runs on your IBM PC (MS-DOS or OS/2), UNIX, or VAX/VMS system.

■ **Best-selling Value:** TurboTEX sets the standard for power and value among TEX implementations: one price buys a complete, commercially-hardened typesetting system. *Computer* magazine recommended it as "the version of TEX to have," *IEEE Software* called it "industrial strength," and thousands of satisfied users worldwide agree.

TurboTEX gets you started quickly, installing itself automatically under MS-DOS, and compiling itself automatically under UNIX. The 90-page User's Guide includes generous examples and a full index, and leads you step-by-step through installing and using TEX and METAFONT.

■ **Power Features:** TurboTEX breaks the 640K memory barrier under MS-DOS on any IBM-compatible PC with our virtual memory sub-system. Even without expanded memory hardware, you'll have the same sized TEX that runs on multi-megabyte mainframes, with plenty of memory for large documents, complicated formats, and demanding macro packages (like PICTEX and AMS-LATEX 2.0) that break other TEX implementations. On larger computers, TurboTEX runs up to 3 times faster in less memory than the Stanford Pascal distribution.

■ **Source code:** Order the TurboTEX source in portable C, and you will receive more disks with over 85,000 lines of generously commented TEX, TurboTEX, METAFONT, and printer driver source code, including: our WEB system in C; PASCHAL, our proprietary Pascal-to-C translator; and preloading, virtual memory, and graphics code. TurboTEX meets C portability standards like ANSI and K&R, and is robustly portable to a growing family of operating systems.

■ **Availability & Requirements:** TurboTEX executables for IBM PC's include the User's Guide and require 640K and hard disk. Order source code (includes Programmer's Guide) for other machines. Source compiles with Microsoft C 5.0 or later on the PC; other systems need 1 MB memory and a C compiler supporting UNIX standard I/O. Media is 360K 5-1/4" PC floppy disks; other formats at extra cost.

■ **Upgrades:** If you have TurboTEX Release 2.0, you can upgrade the executables for only $40. If you have the source distribution, upgrade both executables and source for $80. Or, get either applicable upgrade free when you buy the AP-TEX fonts (see facing page) for $200!

■ **No-risk trial offer:** Examine the documentation and run the PC TurboTEX for 10 days. If you are not satisfied, return it for a 100% refund or credit. (Offer applies to PC executables only.)

■ **Free Buyer's Guide:** Ask for the free, 70-page Buyer's Guide for more details on TurboTEX and dozens of TEX-related products: previewers, TEX-to-FAX and TEX-to-Ventura/Pagemaker translators, optional fonts, graphics editors, public domain TEX accessory software, books and reports.

Ordering TurboTEX

Ordering TurboTEX is easy and delivery is fast, by phone, FAX, or mail. Terms: Check with order (free media and ground shipping in US), VISA, Mastercard (free media, shipping extra); Net 30 to well-rated firms and public agencies (shipping and media extra). Discounts available for quantities or resale. International orders gladly expedited via Air or Express Mail.

AP-TEX Fonts

485 TEX fonts identical to Adobe PostScript Fonts for $200

Get ready for the quality of Adobe PostScript fonts for your TEX documents and non-PostScript printer! If you use any brand of TEX with an HP LaserJet or DeskJet printer, the AP-TEX fonts from Kinch add a wealth of attractive typefaces identical to the popular PostScript extended font families.

By de-crypting the Adobe coding, we are able to exactly translate the PostScript fonts into TEX font bit map and metric files. These translated fonts include the renowned Adobe "hints," which render the smaller point sizes of the fonts with remarkable clarity on laser and ink-jet printers. The fonts use the TEX character set encoding and font metrics, including full kerning and ligature programs.

The AP-TEX fonts, supplied on ten 360K 5-1/4" PC floppy disks, contain 35 typefaces in PK format (including TEX font metric (TFM) files) for 300 dots/inch laser and ink-jet printers. The fonts included are identical to the Adobe PostScript implementations of the trade names and samples shown at right. The point sizes for each typeface included are the TEX sizes 5, 6, 7, 8, 9, 10, 11, 12, 14.4, 17.3, 20.7, and 24.9 points. Headline styles (equal to Times Roman, Helvetica, and Palatino, all in bold) also are included at 29.9, 35.8, 43.0, 51.6, 61.9, and 74.3 points.

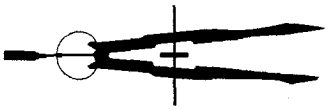
DeskJet driver for TEX

With The Toolsmith's DVI driver and the Hewlett-Packard DeskJets you get:

- Print Quality – the precison of laser printers (300 dpi) without the price.
- Speed – with downloaded fonts, ≈1 page per minute on a DeskJet, faster on a Plus.
- Quiet – non-impact printing and no fan.

You are only limited by the page size and your TEXpertise. $100 for the DeskJet DVI driver (shipping and any sales tax included). To order or for more information, call or write:



The Toolsmith
P.O. Box 5000
Davis, CA 95617
(916) 753-5040

Requires IBM PC or compatible, hard disk, 512K or more RAM, and MS-DOS 2.11 or later. This ad, including the logo, was created on a DeskJet with TEX and METAFONT

TEX Publishing Services

From the Basic

The American Mathematical Society can offer you a basic TEX publishing service. You provide the DVI file and we will produce typeset pages using an Autologic APS Micro-5 phototypesetter. The low cost is basic too: only $5 per page for the first 100 pages; $2.50 per page for additional pages, with a $30 minimum. Quick turnaround is important to you and us ... a manuscript up to 500 pages can be back in your hands in just one week or less.

To the Complex

As a full service TEX publisher, you can look to the American Mathematical Society as a single source for all your publishing needs.
